Summary: I've been working for more than a year in the HR department in a variety of capacities. Adept at coordinating HR efforts with business objectives to boost output and worker satisfaction. Able to build solid relationships and create a healthy work environment at all organisational levels. Outstanding strategic thinker and communicator who is dedicated to ongoing professional growth. My goal is to work hard and secure a role that will allow me to apply my expertise, understanding, and proficiency in managing various areas of human resources.

CURRENT WORK EXPERIENCE

Organization: Population Services International (PSIPL)

Position Held: Human Resource Consultant (August 2023-till date)

Roles and Responsibilities

- Overseeing the entire hiring cycle, which includes posting jobs, screening candidates, conducting interviews, and negotiating offers. This leads to the successful hire of top personnel (Naukri, Devnet).
- Leading onboarding activities and holding orientations for new hires in order to encourage their participation and assimilation within the company.
- Offering advice to staff members on matters pertaining to performance management, such as goal-setting, giving feedback, and creating plans for performance improvement.
- To enhance staff happiness and retention, suggested action plans, outcome analysis, and employee engagement surveys are conducted.
- Leading workshops and inductions for management and staff.
- Keeping personnel records accessible and well-organized requires managing both hard and soft versions of documentation. scanning all employee documents that are on paper and organising them into logical folders according to their categories.
- Selecting dependable DMS software, such as Google Drive or SharePoint, that makes it possible to effectively store, arrange, and retrieve digital versions of staff documents.
- Keeping track of the consultant files, invoices, and daily activity report in both the consultant's files and separate files.
- Time-off requests, leave balance management, and employee attendance tracking are all included in HRMS software. It consists of integrated attendance monitoring devices and automated processes for approving leaves of absence.
- HRMS also assists us in monitoring employee timesheets.
- Managing the employee tracker, where we can make sure that every worker's file is

present.

- Handling the telephonic round first for business executive employees.
- Verifying the accuracy of the information provided by the candidate is the first step in the reference check process. References should come from previous employers' HR departments, supervisors, and coworkers; they shouldn't be the candidate's friends. The reference must be called, introduced, and asked to assure the confidentiality of the information provided.
- Reference-specific questions concern the duration of their relationship with the candidate, the cause of their departure, the candidate's pay, the role they held in their prior employer, the candidate's performance, their punctuality, their honesty, their technical skills, their communication abilities, their areas of strength, and their overall suitability for the roles. Additionally, every detail needs to be kept in the employee's digital and physical files and folders.
- Every month, birthday and holiday mailers must be sent, along with vouchers for their birthdays.
- Keeping track of timesheet updates and the number of departing and joining staff members or consultants.
- Managing the backend team, which consists of finance, marketing, IT, procurement, and sales, in addition to programme teams.
- Evaluating the employee code of conduct document, safeguarding course, code of conduct course, US family planning course, appraisal form, and mid-year review forms.
- Presentation for newly hired employees regarding timesheets and attendance.
- Supported in audit related documents and associated work.
