Summary

Results-driven professional with hands-on experience in project coordination, desktop publishing, and team leadership within multilingual localization environments. Skilled in managing complex workflows, ensuring high-quality deliverables, and leading cross-functional teams to meet deadlines efficiently. Proficient in Adobe Creative Suite, project management tools, and multilingual content handling. Additionally, experience in data analysis and software development with a strong foundation in Python, SQL, and NLP. Known for bridging technical and communication gaps to deliver impactful solutions in fast-paced, collaborative settings.

Core Competencies

- Multilingual Project Coordination & Scheduling
- Leadership and Development of High-Performing Teams
- Desktop Publishing (Adobe InDesign, Illustrator, Photoshop)
- Localization Quality Assurance & Compliance
- Rigorous Quality Assurance and Compliance Adherence
- Data Analysis & Cleaning (Python, SQL, Excel)
- Natural Language Processing (NLP)
- Client Communication & Stakeholder Engagement
- Project Management Tools (XTRF, Trello, Excel)
- Workflow Optimization & Deadline Management

Experience

Project Coordinator Intern → DTP Operator , Big Language Solutions (BIG) – June 2024 - Present
Noida, Uttar Pradesh

- Progressed from intern to team leader, gaining experience in managing multilingual localization and desktop publishing projects.
- Coordinated cross-functional teams and timelines for projects in Japanese, European, and Asian languages.
- High-quality culturally adapted layouts were produced using Adobe InDesign, Illustrator, and Photoshop.
- Led a team of DTP specialists, assigning tasks, reviewing outputs, and ensuring timely, client-ready delivery.
- Skilled in handling complex file formats (PDF, IDML, Word, XML) and ensuring brand consistency across multiple languages.
- Collaborated with international teams to deliver precise, polished, and on-brand multilingual content.

Data Analyst Intern, Edulyt India – Dwarka, Delhi May 2023 - July 2023

- Analyzed credit card customer acquisition data to generate actionable insights for business reporting.
- Performed data cleaning and preprocessing using Python, Excel, and SQL to enhance data quality.
- Organized and analyzed online shopping datasets, contributing to improvements in database accuracy and structure.

Software Developer, OHSL (Open Health System Laboratory) – Remote May 2023 - July 2023

- Developed a Neuro-Oncology Assistant chatbot using Python and Natural Language Processing (NLP) techniques.
- Designed the chatbot to provide accurate, general information on neuro-oncology topics, including brain tumor types, symptoms, and associated risks.
- Enhanced user engagement by delivering reliable and accessible healthcare information through an AI-driven conversational interface.
