I am a purpose driven Product Manager and Consultant with expertise in renewable energy systems and a passion for driving large-scale socio-economic impact. Experience managing complex projects and fostering collaboration with diverse stakeholders to develop and implement smart solutions. With a proven track record of launching multiple cleantech products, I am passionate about empowering India's net-zero transition through sustainable actions.

Work Experience

ENVIRIA Energy Holding GmbH, Germany

Product Manager - Energy Storage and Digital Energy Management | [09.2024 – 01.2025]

- Managed the end-to-end lifecycle of [PeakHive](#), a B2B co-located solar PV and battery product, guiding the project from hypothesis to launch successfully meeting all technical and commercial objectives
- Developed and owned long-term product roadmap, by synthesizing complex requirements based on continuous interaction with customers, partners, and internal teams, to ensure alignment and drive action

gridX GmbH, Germany

Product Manager - Decentralized Energy Resource Management Platform | [12.2022 – 08.2024]

- Conducted comprehensive analyses of project workflows, identifying key inefficiencies and implementing strategic changes that reduced project delivery times by 50% and costs by 54%
- Expanded the digital home energy management system XENON with support for heat pumps, orchestrated efficiently along with solar, batteries and EV chargers across 3 different European regulatory regions
- Managed the prioritization and execution of new features in an AGILE environment, proactively mitigating risks, to deliver high-quality, on-time product releases to customers
- Led international, multi-disciplinary teams on pan-European projects, ensuring transparent, trust-based communication of project KPIs with internal and external stakeholders

bloXmove GmbH, Germany

Product Owner – Mobility Blockchain Platform | [04.2022 – 10.2022]

- Steered development of the multi-partner, inter-modal mobility platform “Green European Mobility Pass” ([GEMP](#)), by establishing trust-based relationships with leading private sector stakeholders
- Coordinated the requirements planning and product backlog and product design with interdepartmental teams

Oli Systems GmbH, Germany

Master Thesis Student | [08.2021 – 01.2022]

- Analysed the energy security of co-located solar PV and storage energy systems in European households
- Developed a techno-economic model of renewable energy communities in different EU regulatory environments
- Master thesis selected as a finalist at the EU [Sustainable Energy](#) Week 2021

BTU Cottbus-Senftenberg, Germany

Working Student | [05.2021 – 07.2021]

- Experimented on emission reduction systems for mobility projects

Siemens Energy AG, Germany

Intern | [11.2020 – 04.2021]

- Programmed a Python based mathematical optimization model for renewable energy systems

IIT Madras, India, Project Associate | [09.2017 – 03.2018]

- Modelled “Solar Energy Powered Net-Zero Energy Smart Buildings” as a part of an Indo-Canadian venture ([Link](#))

Education

MBA Business Management, Narsee Monjee Institute of Management Studies, India [01.2025 – today]

M.Sc. Power Engineering, Brandenburg Technical University, Cottbus, Germany [10.2019 – 03.2022]

B.Tech. Mechanical Engineering (specialization in Renewable Energies), VIT, India [07.2013 – 09.2017]

Projects

perspectiEV club [podcast](#): co-founder and host

Insiders Guide to Energy [podcast](#): producer

Talk Energy with YES Europe [podcast](#): host

Future thought leader, Illuminem: [blogger](#)

AI Enthusiast and [project builder](#)

Partnerships manager Germany: [YES Europe](#)

Certifications/ Publications

Professional Scrum Certified Product Owner ([Link](#))

Project management certification (Google)

Project management foundation (PMI)

Roadmap for third generation solar technology deployment in a third world country (EEEIC)

International Conference: May 2021) (Page 1-10) ([Link](#))

Software Knowledge: Python, Tableau, MS Excel

Languages: English, German, Spanish, Tamil, Hindi

Earliest Entry Date: 01. November.2025

Nationality: Indian

Relocation: Willing

Birthdate/ Civil Status: 08. October.1995, Single
