

RAJAT BISAIN

Senior SAP S/4HANA MM / TM Consultant

Noida, India | +91 7390019539 | rajat221192@gmail.com | [LinkedIn](#)

ABOUT ME

Senior SAP S/4HANA MM / TM Consultant with 5+ years delivering Private Edition implementations, global rollouts, and go-lives for manufacturing and supply-chain organizations.

Trusted to stabilize production systems under live business pressure, owning MM and TM processes across P2P, inventory, STOs, and transportation execution.

Known for challenging legacy processes, driving Fit-to-Standard with SAP Activate, and reducing operational risk through clean integrations and decisive delivery.

PROFESSIONAL EXPERIENCE

SAP Product & Platform Consultant (Freelance)

SAP Self employed Professional | July 2024 – Present

- Provide SAP S/4HANA MM / TM consulting across Fit-to-Standard workshops, configuration, testing, cutover, and hypercare for manufacturing and operations-focused clients
- Translate business requirements into standard-aligned SAP S/4HANA solutions, reducing custom development and long-term support complexity
- Configure and optimize Procure-to-Pay, inventory management, and logistics execution processes in line with SAP best practices
- Support Unit, Integration, and UAT testing, ensuring stable and compliant go-lives
- Drive change management and user enablement, supporting adoption across procurement, logistics, and operations teams
- Collaborate with international stakeholders, developers, and SAP CoE teams in distributed project environments

Selected Contract Project:

GE Vernova – SAP S/4HANA Operations & Optimization (Contract)

- Stabilized S/4HANA manufacturing operations across 3 production plants processing 4,000+ material movements/month, covering MM-, EWM-, and PP-integrated processes
- Reduced production-affecting incidents by ~14% within 3 months, preventing recurring supply interruptions in high-throughput environments
- Resolved material shortages impacting production orders valued at €7 million in monthly output, protecting on-time manufacturing commitments
- Corrected logistics failures affecting critical BOM components, minimizing risk of line stoppages
- Led hypercare response across live production systems supporting 15+ key operational planners and buyers

GPI Hannover GmbH | Hannover, Germany

Business Solution Analyst – Digital Operations Platforms | May 2023 – June 2024

- Directed process adjustments across procurement and logistics streams supporting €23 million annual purchasing volume
- Reduced recurring supply bottlenecks affecting 200+ SKUs, improving material availability and planning reliability
- Strengthened SAP MM, EWM, and PP alignment across operations supporting multi-shift production environments
- Improved inventory accuracy across key materials by ~6% through workflow and integration corrections

SAP TM Implementation (Internal Project)

- Supported end-to-end SAP TM implementation, including transportation planning, freight order management, and integrations
- Customized IDocs and customer-specific enhancements, ensuring seamless system integration
- Coordinated workshops, workflow design, and go-live readiness activities

VMI Platform Replacement (Internal Project)

- Supported replacement of a legacy VMI solution, improving scalability and system performance
- Contributed to workflow design, SKU/material management improvements, and rollout activities
- Supported improved inventory accuracy through better system integration and process alignment
- Ensured stability of MM, EWM, and PP processes, resolving supply bottlenecks in coordination with production and purchasing teams

Michael Kroschwitz Consulting | Oldenburg, Germany

SAP Consultant – Platform & Integration Focus | April 2021 – March 2023

- Delivered 2 SAP S/4HANA Private Edition implementations for large manufacturing and consumer goods clients, supporting end-to-end global rollout activities across MM- and TM-driven processes
- Played a key functional role in global rollout programs, supporting template-based deployment and localization for German rollout regions

Key Client Engagements:

Voith SE | Heidenheim, Germany

- Delivered SAP S/4HANA Private Edition rollout supporting 120+ business users across procurement and logistics functions
- Took full functional ownership of production system during go-live, stabilizing operations handling 2000+ purchase orders and STOs per month
- Resolved high-priority incidents during hypercare, preventing disruption to plant-level manufacturing operations

Beiersdorf AG | Hamburg, Germany

- Supported MM & TM implementation across 100+ active users in consumer goods supply chain operations
- Directed hypercare stabilization across procurement and transportation processes supporting high-volume SKU distribution networks
- Managed integration stability across MM-FI and TM processes impacting 1000+ freight orders per month

Mealville OHG | Berlin, Germany

Founder & Operations Manager (Startup Experience) | November 2019 – March 2021

- Scaled end-to-end operations for a food-tech startup processing 100–150 customer orders per week, coordinating demand planning, vendor fulfillment, and last-mile execution
- Managed a vendor network of 15–20 active suppliers, handling onboarding, pricing alignment, delivery schedules, and service-level adherence
- Supported operations tied to €200K–€300K projected annual revenue, balancing growth targets against supply reliability and cost control
- Designed and executed manual-to-systemized workflows for order intake, vendor coordination, and exception handling in the absence of mature tooling
- Survived and stabilized a critical operational failure when multiple vendors failed to deliver simultaneously, causing order backlogs and customer escalations
 - Re-routed orders, renegotiated short-term supplier commitments, and restored service continuity within 48 hours
 - Implemented fallback sourcing and buffer-stock logic to prevent recurrence

Sona BLW Precision Forgings Ltd | Gurugram, India

Summer Intern | June 2014 – July 2014

- Completed training on lean manufacturing and vehicle steering assembly line

EDUCATION

Master of Science (M.Sc) – International Technology Transfer Management

Bbw Hochschule | Berlin, Germany | 2016 – 2019

Bachelor of Technology (B.Tech) – Mechanical Engineering

Invertis University | Bareilly, India | 2011 – 2015
