Research Article

- **Title:** <https://doi.org/10.1016/j.nexres.2025.101179> **Year:** 2025
Theoretical insight to explore Ti₃C₂@ZnO composites towards sensing of isoprene for diagnosis of lung cancer
- **Title:** <https://doi.org/10.1038/s41598-024-77619-9> **Year:** 2024
Computational supported experimental insights in adsorption of Congo Red using ZnO/doped ZnO in aqueous solution (*Impact factor- 3.8*)

Review Article

- **Title:** <https://doi.org/10.1016/j.ccr.2026.217774> **Year:** 2026
A comprehensive review of heavy metal ions removal using 2-D materials: mechanism, surface chemistry, and coordination bonding (*Impact factor- 23.5*)
- **Title:** <https://doi.org/10.1016/j.ccr.2025.216890> **Year:** 2025
Coordination and organometallic compounds of graphyne and graphdiyne: synthesis, properties and application (*Impact factor- 23.5*)
- **Title:** <https://doi.org/10.1016/j.compositesb.2025.112521> **Year:** 2025
MXenes and their composites for high-performance detection of pharmaceuticals and pesticides: A comprehensive review (*Impact factor- 14.2*)
- **Title:** <https://doi.org/10.1007/s11157-025-09734-6> **Year:** 2025
Breaking the ‘forever’ bond: photocatalytic degradation of per- and polyfluoroalkyl substances using ternary photocatalysts (*Impact factor- 10.6*)
- **Title:** <https://doi.org/10.1016/j.ijbiomac.2024.135101> **Year:** 2024
A review on the use of composites of a natural protein, silk fibroin with Mxene/carbonaceous materials in biomedical science (*Impact factor- 8.5*)
- **Title:** <https://doi.org/10.1039/D4TB01293C> **Year:** 2024
Atomically dispersed single-atom catalysts (SACs) and enzymes (SAzymes): synthesis and application in Alzheimer's disease detection (*Impact factor- 5.7*)
- **Title:** <https://doi.org/10.1016/j.envres.2024.119684> **Year:** 2024
Unveiling the impact of dyes on aquatic ecosystems through zebrafish – A comprehensive review (*Impact factor- 7.7*)
- **Title:** <https://doi.org/10.1016/j.talo.2025.100486> **Year:** 2025
Wearable Biosensors in Modern Healthcare: Emerging Trends and Practical Applications (*Impact factor- 3.7*)
