- Warehouse & Commodity Monitoring
- Food Aid & USDA Compliance
- Receipt, Storage & Distribution Oversight
- Loss & Damage Prevention
- Warehouse Monitoring & Store Readiness
- Transport & Distribution Coordination
- Staff Supervision & Field Team Support
- Safeguarding, Safety & Compliance
- Reporting, Data Accuracy

Work Experience

Save the Children International – Sri Lanka

Meal Coordinator (PALAM/A II – USDA Funded Project) Badulla District

2023 – Present

Supporting warehouse and commodity operations for one of the largest PALAM/A operational district of Badulla.

- Monitoring, Evaluation, Accountability and Learning at district level, reporting to MEAL manager and Deputy MEAL Manager.
- Maintaining the district level database (18914+ students from 216 schools in 14 Education divisions, 06 Zones, 330 SMPs) forwarding data to MEAL management, data analysis, and handling feedback mechanism, data protection, ensuring data quality and providing technical inputs to evaluation, providing technical support to the project team, and tracking the project progress.
- Updating IPTT, QB, Feedback Tracker and response mechanism.
- Supported district-level warehouse and commodity management operations for commodity distributions under PALAM/A project.

- Verified commodity receipts, quantities and documentation including waybills, packing lists and distribution records at the JDP points.
- Monitored food storage conditions, hygiene, safety and FIFO compliance at intermediate stores, school stores and SMPs.
- Conducted regular field inspections of storage facilities, identifying gaps and recommending corrective actions to ensure compliance with SCI and USDA standards.
- Cross-checked physical stock movements against reports, ensuring accuracy of commodity data and preventing losses or Damages.
- Coordinated with Warehouse Manager, field staff and program teams to ensure timely dispatch and receipt of food commodities.
- Supported loss reporting, issue escalation and corrective follow-up in line with SCI commodity management procedures.
- Reviewed and validated weekly and monthly commodity movement reports and contributed to donor and internal reporting.

Operational & Supervisory Support

- Provided technical guidance to field and warehouse staff on documentation, reporting and compliance requirements.
- Supported capacity building for Transport suppliers regarding food handling and safeguarding.
- Worked closely with education authorities, school staff and community stakeholders across a large geographical area with complex logistics.

Safeguarding & Compliance

- Served as District Safeguarding Focal Person, ensuring child, adult and staff safeguarding compliance across warehouse, distribution and field operations.
- Promoted safe warehouse practices, Safe Program, risk mitigation and incident reporting in line with SCI policies.
